

Please note: This PDF only has up to the first 250 providers of your search results. This is not a list of all providers.

IMPORTANT

While we make efforts to ensure that our lists of doctors and hospitals are up to date and accurate, providers do leave our networks from time to time, and these listings do change. There are hospitals, doctors or other providers who are not included in every plan network. **Please make sure you are searching the right network.** Logging in as a member is the most accurate method to search for providers in your plan network. You may also enter your Alpha Prefix (the first three letters of your member number on your ID card). There may be higher costs to you if you visit a provider who is not in your plan network. We recommend you contact the provider to confirm that they are in your plan network and that the desired service is covered.

If you receive services from a network hospital, the hospital may arrange with physicians and other providers to assist in your care. Network hospitals are encouraged to hold those hospital-based providers to the same standards for member billing. However, if a hospital does not require its hospital-based providers to comply with the same standards, we cannot influence the manner or amount that you may be billed by the hospital-based provider.

This directory is for general information. Health benefit plans vary, so please consult your benefit plan document to determine what services and supplies are covered under your particular plan.

**Provider Search
Criteria:**

Role/Specialty: Vision Professional
Location: 42301, 50 miles

Plan Type: VISION
Plan Name: Blue View Vision

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment.

These networks serve Blue View Vision, Blue View Vision Select, Blue View Vision Insight and Anthem Vision members only. Vision coverage includes routine vision examinations, corrective eyewear and other discounts. Reference your plan documents for details. Please see your health plan directory for eye related medical or surgical treatment.
