

# WORKSHOPS

## Morning Sessions

**Light it Up, Salty** with Katie Prejean  
(High School and Middle School)

How do we share our faith? What is it that we should do to proclaim the Truth of Christ? Join us for this workshop to unpack Matthew 5:13-16 and learn how to be salt of the earth and light of the world.

**Ask Paul (not the Apostle)** with Paul J. Kim  
(High School and Middle School)

Question and Answer Session

**5 Senses for a Joyful Heart & Holy Mind** with Dr. Jill Sauerheber  
(High School and Middle School)

As young people in the culture in which you live, how can you use and feed your five senses (touch, taste, sight, smell and hearing) to encounter the Holy and Pure. How can this lead to happiness in heart and mind, body and soul? This workshop will show you how to practice and achieve this goal.

**Our Daily Battle: How to Battle the Devil...and WIN!** with Fr. Dave Johnson and Christina Barnard  
(High School and Middle School)

Do not underestimate the power of evil! Have you ever wondered how the devil works? Even more importantly, have you ever wanted to know how to defeat him? If you answered yes to either of those questions, then come and join us! We will discuss ways the devil tries to trip us, as well as what we can do to win the battle against him.

**Prayer: Breaking through distraction and getting in tune with the still, soft voice of God.**  
with Charlie Hardesty  
(High School and Middle School)

Whether you are in middle school, high school, or adulthood, you have a busy, and often noisy life.

Amongst the distraction, how do we hear the still, soft voice of God calling us into relationship? This breakout session is geared towards equipping our lives of prayer to reflect a spirit of availability to the ever present love of God.

**Chemotherapy for the Family** with Joe Bland  
(Adults)

The reason for the title of this workshop is that I believe that we are trying to treat the symptoms of what ails our society today and not going to the root of the problem or to the cause of the disease, some do not even know the cause of the disease. If someone has cancer or another serious illness any doctor that's good at what they do will look at the body at the smallest level of the body (cellular level) to cure the person. That's where a cancer will attack because it is the cell that is the building block of the body. The Family is the smallest cell of the Body of Christ, so we will look at the family to cure the cancer in our society and culture today.

## Afternoon Sessions

**Coming Off the Mountain** with Ben Warrell  
(High School and Middle School)

After attending a mountain top experience like Camp, ODYC, NCYC, Mission Trips, Youth 2000, or CLI what comes next? How do we stay connected and close to God once we go back to our daily routine. Come play some games and learn some tips on how to stay engaged with our Faith.
